

MEMORANDUM FOR: The Director
SUBJECT: Economic Intelligence

Attached are two papers you should peruse before your meeting with John Irwin. The first is an excellent rack-up of OER production of economic intelligence. It was prepared for the NSCIC Working Group. The second is the memo you sent to Henry Kissinger commenting on the PFIAB report on economic intelligence. The thrust of your response was that you agreed on the need for greater coordination and suggested that the CIEP might play a role in behalf of non-USIB agencies. Your memo also downplayed the extent to which we should get involved in commercial intelligence.
